## 106MkA

### Installation Instructions for RAM-AIR Airbox on '05/'06 700/900 Polaris Fusion or RMK

- 1-Remove stock airbox and rubber boot. Retain rubber boot & foam intake snow shield.
- 2-Using front pulley guard hinge mount as template, drill (2) 3/16 holes in fender as in pix. Install using (2) 3/16 LF pop rivets & bkup washers.
- 3-Install rear pulley guard hinge using (2) 10x24 screws, flats & nylocks, as in pix. Install pulley guard with hairpins before final tightening.
- 4-Remove HV coil fasteners (3), then loosely re-install coils and rear airbox hanger bracket with OEM fasteners, as in pix.
- 5-Place front rubber boot over airbox outlet then fit over air plenum inlet.
- 6-Place (2) supplied 1/4x20 wellnuts into rear airbox holes and secure to hanger bracket with (2) supplied 1/4x20 screws.
- 7-Adjust airbox fit for minimum of .250" airgap between pipe and airbox. Attach foam snow shield with contact cement to airbox.  
\*warning-if airbox cannot be adjusted properly, contact Fire n Ice.

#### Limited Warranty

Fire\*n\*Ice Performance Products, LLC, warrants each article manufactured to be free from material and workmanship defects for a period of one year. This warranty does not cover cosmetic or structural damage arising from abuse, misuse, owner neglect, improper installation and/or assembly, or improper maintenance. Any modifications, changes, additions, or substitutions to any part or component of Fire\*n\*Ice RAM-AIR Airbox are done at the risk of the user. Fire\*n\*Ice makes no warranty against said modifications, changes, additions or substitutions. Normal wear or exposure to environmental elements is not covered by this warranty Fire\*n\*Ice is not responsible for any shipping or dealer charges related to any warranty claim, whether or not the claim is accepted by Fire\*n\*Ice. This warranty is void when using after-market pipe(s). When using after market pipe Fire\*n\*Ice Performance Products primary air plenum offset kit must be used.
